

## **Choice of 4 jumpers sets for pitch 2.0 mm and pitch 2.54 mm**

The jumpers are used to set up device parameters e.g. Master/Slave for hard-drives or other mass-storage devices with an IDE or SCSI interface. We provide a choice of 4 different sets which covers the needs of either one SCSI/ IDE device or a mix of both. Please check the pitch of your Hard-drive before placing the ordering to make sure that the compatibility with your hardware is given.

(Pitch =RM in German)

### **30 jumpers for RM 2.00 mm [SET-1]**

15 jumpers RM2.00 mm /2.0 mm high (grey)  
15 jumpers RM2.00 mm /4.0 mm high (black)

The jumpers are compatible with 3,5" as well as 2,5" hard drives.

The jumpers can also be used for all other devices with a RM 2.00mm system.

### **15 jumpers for RM 2.45mm [SET-2]**

15 jumpers RM 2.45 with long strap

The specific design of the RM 2.54 jumper for IDE devices provides a grab strap. With the total length of 14mm the jumper allows an easy use even with already installed and hard to reach hard drives.

### **Mix of all jumpers types [SET-3]**

9 jumpers RM2.00 mm /2.0 mm high (grey)  
9 jumpers RM2.00 mm /4.0 mm high (black)  
6 jumpers RM2.54 mm with long strap

### **24 jumpers for RM 2.00 mm [SET-4]**

24 jumpers RM2.00 mm /2.0 mm high (grey)

The jumpers are compatible with 3,5" as well as 2,5" hard drives.

The jumpers can also be used for all other devices with a RM 2.00 mm system.
